Attendance & Voting Sheet

Allocation Review Extract - Structured Income Satellite Sleeve

Meeting date	12 March 2006
Committee ref.	IC-2006-03-12-A
Prepared by	Committee Secretariat
Related client	NorthLake Pension

MEETING STATUS Quorum met	DECISION TYPE Conditional approval	REFERENCE IC-2006-03-12-A
-------------------------------------	--	-------------------------------------

1. Attendance and voting record

Member	Role	Present	Vote	Comment captured in minutes
Daniel Frost	Chief Investment Officer	✓	Yes - limited increase	Small allocation acceptable if it remains a satellite sleeve.
Mira Chen	Chief Risk Officer	✓	Conditional	Require collateral review before any material increase.
Maya Collins	Client Relations	✓	Yes	NorthLake expects a peer-aware response.
Owen Grant	Portfolio Manager	✓	Abstain	Need liquidity test before larger allocation.
Priya Nair	Fixed Income Lead	✓	Yes	Senior-rated structures may improve carry if sized carefully.

Recorded decision

The committee approves a limited structured-credit satellite sleeve, subject to exposure limits and quarterly collateral review.

Approval condition

Initial structured-credit allocation should remain below 5-7% of portfolio NAV unless additional collateral and liquidity review is completed.

2. Allocation snapshot referenced in discussion

Sleeve	Current allocation	Committee guardrail	Observation
Broad Equity Index	40%	No change approved	Risk asset exposure remains diversified.
Financial Sector Basket	10%	Increment only with sizing note	Leading returns at +7.2% YTD.
Structured Credit Basket	5%	Below 5-7% unless review completed	Carry enhancer, not core substitute.
Investment-Grade Bond Basket	25%	Maintain core defensive sleeve	Returned +1.6% YTD.
Cash / Treasury Bills	20%	Liquidity reserve to be explained	Returned only +0.7% YTD.

Committee Follow-up Record

Conditions, action items, and controlled filing notes

Meeting date	12 March 2006
Committee ref.	IC-2006-03-12-A
Status	Filed
Extract type	Controlled

Extract from meeting notes:

"Cash drag is becoming difficult to defend while financial-sector assets and structured credit continue to lead returns. However, the committee did not approve structured credit as a substitute for core IG bonds or the liquidity reserve. Any increase beyond the approved satellite range requires collateral review and dealer-liquidity confirmation."

DOCUMENT CONTROL

Classification	Internal - Committee use only
Distribution	CIO, CRO, Portfolio Manager, Client Relations
Linked client	NorthLake Pension
Decision scope	Satellite structured-credit allocation only

FILED
CONTROLLED COPY

3. Action items recorded after vote

Action item	Owner	Due	Status
Prepare NorthLake response explaining cash sleeve and peer comparison.	Maya Collins	Before client call	Open
Run collateral review before any material structured-credit increase.	Mira Chen / Risk System	Next committee cycle	Required
Confirm dealer depth for standard tickets only; do not assume block liquidity.	Jon / Market Desk	T+2	Pending
Document whether structured income remains a satellite sleeve.	Owen Grant	Portfolio memo	Open

Committee Guardrails & Record Control

Conditions attached to the structured-credit satellite allocation

4. Committee guardrails

Guardrail	Recorded wording
Exposure size	Structured credit should remain a satellite sleeve unless collateral and liquidity review is completed.
Liquidity reserve	Cash/T-bills and IG bonds should remain available to explain and defend liquidity positioning to NorthLake.
Dealer liquidity	Dealer indications should be treated as normal-market estimates, not guaranteed block liquidity.
Client communication	Response should explain both opportunity cost and risk-control rationale.

Filing note:

This document is a committee record, not an investment recommendation. It provides surface-level governance context and records the conditions attached to the initial structured-credit allocation discussion.
